**WE ARE LRHS!**

**2011-2012**

# Logan-Rogersville High School

## ***Focus on Learning & Performance***

EOC Testing went really well. This was the first year for every exam to be given online. The Technology Department did an awesome job making sure we were ready to go each day. Using a modified block schedule, we were able to complete our testing in two weeks. It was evident that students were giving their best effort on the EOCs.

## ***Focus on Professional Development***

Faster than a speeding bullet.... Technology is changing. The LRHS staff has been using the last two early out Fridays exploring the 1:1 concept. With a wide range of computer skills among the staff, next year we will focus a majority of our time on staff development for teachers and then strategies for incorporating new technology into the learning environment with students.

## **BIG EVENTS**

**on the**
